### Objectives
The purpose of this session is for participants to:
- Reflect on the workshop as a whole
- Recall key messages and insights
- Consider the applications back home
- Complete the post assessment and review their current knowledge and learning
- Make commitments to next step actions

### 15:00 Group Activity
**In groups**
- Agree on five key messages from this workshop
- Use post-it notes, and place on flip chart
- Present them to the class

### 15:10 Individual Reflection
**Individually:** Think back on the 3 days (20 minutes)
- How would you describe this course to your professional colleagues back home?
- If you were to apply these concepts in your own laboratory, where and how would you start?
- What will be your “elevator speech?”

Work in pairs, and try your elevator speech to a partner. If you are comfortable, share your answers with the class.

### 15:40 Key Learning Messages
Review biorisk management course materials Summary slides
- Risk
- Biorisk: laboratory biosafety and laboratory biosecurity
- AMP = Assessment, Mitigation, Performance
  - Assessment consists of: risk identification, hazard (or threat) identification, evaluation of likelihood, evaluation of consequences
- Mitigation consists of: substitution or elimination, engineering controls, administrative controls, practices and procedures, PPE
- Performance consists of control, assurance, improvement
  - Mitigation is enhanced and sustained when performance measures are included
  - Performance measures should inform assessment
  - PDCA should inform assessment, mitigation, and performance
