1. INTRODUCTION

1.1 Objective of the RFP

The purpose of this Request for Proposals (RFP) is to enter into a contractual agreement with a successful bidder and select a suitable contractor to carry out the following work: GLOBAL SEASONAL INFLUENZA MORBIDITY BURDEN ESTIMATES

WHO is an Organization that is dependent on the budgetary and extra-budgetary contributions it receives for the implementation of its activities. Bidders are therefore requested to propose the best and most cost-effective solution to meet WHO requirements, while ensuring a high level of service.

1.2 About WHO

1.2.1 WHO Mission Statement

The World Health Organization was established in 1948 as a specialized agency of the United Nations. The objective of WHO (www.who.int) is the attainment by all peoples of the highest possible level of health. Health, as defined in the WHO Constitution, is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. WHO’s main function is to act as the directing and coordinating authority on international health work.

1.2.2 Structure of WHO

The World Health Assembly (WHA) is the main governing body of WHO. It generally meets in Geneva in May of each year and is composed of delegations representing all 194 Member States. Its main function is to determine the policies of the Organization. In addition to its public health functions, the Health Assembly appoints the Director-General, supervises the financial policies of the Organization, and reviews and approves the proposed programme budget. It also considers reports of the WHO Executive Board, which it instructs with regard to matters upon which further action, study, investigation or report may be required.

The Executive Board is composed of 34 members elected for three-year terms. The main functions of the Board are to give effect to the decisions and policies of the WHA, to advise it and generally to facilitate its work. The Board normally meets twice a year; one meeting is usually in January, and the second is in May, following the World Health Assembly.

The WHO Secretariat consists of some 8,300 health and other officers at the Organization’s headquarters in Geneva, in the six regional offices and in countries. The Secretariat is headed by the Director-General, who is appointed by the WHA on the nomination of the Executive Board. The current Director-General is Dr Margaret Chan. The head of each regional office is a Regional Director. Regional directors are appointed by the Executive Board in agreement with the relevant regional committee.

1.2.3 Description of Cluster/Service/Unit

Within WHO Strategic Category 5 ‘Preparedness, surveillance and response’, the overarching objective of the Global Influenza Programme are to strengthen global pandemic preparedness through improved quality and global coverage of influenza surveillance and response, improved understanding of health and economic burden of influenza, increased national preparedness for pharmaceutical (vaccine, drugs and other supplies) and non-pharmaceutical interventions,
expanded vaccines use/coverage, more rapid communication and information exchange between Member States, WHO Global Influenza Surveillance Network members, key partners and stakeholders.
2. DESCRIPTION OF SUBJECT / PRESENT ACTIVITIES

2.1 Objectives of the activity

Disease burden estimation for pandemic and seasonal influenza has been identified as a gap, especially in some developing countries. The pandemic influenza preparedness (PIP) framework supports influenza disease burden estimates from selected countries and the development of a global estimate of influenza disease derived from national estimates.

A WHO manual to guide countries to estimate influenza morbidity has been developed to estimate the burden based on influenza surveillance data. Countries have been supported to use this method to estimate their burden. Further countries have been encouraged to use other methods to triangulate the results.

WHO has also asked for systematic literature review on the morbidity and mortality as well as the risk factors for influenza disease. Further, a data analysis and review for the burden of children below the age of 5 years with comparison to the RSV burden in this age-group is ongoing. And finally, an estimation of the global seasonal excess mortality will be done.

The proposal should aim to estimate the global seasonal influenza morbidity globally and at the regional level with estimates including as much as possible developing and tropical countries. It will aim to collect the burden estimates currently carried out using the method described in the WHO manual. But it will also use all other estimates generated that are possible to include in a model to estimate the global influenza disease burden.
3. REQUIREMENTS

3.1 Introduction

WHO requires the successful bidder, the Contractor, to carry out data collection of country burden estimates, develop the best model and estimate regional and global seasonal influenza morbidity estimates. The results of the study need to be finalized before the end of 2016.

3.2 Characteristics of the provider

3.2.1 Status

- The provider shall be an institution operating in the field of influenza disease estimation with proven expertise in modelling disease burden.

3.2.2 Previous experience

- Previous work with WHO or another international organizations and/or major institutions in the field of burden estimation.
- Proven experience in modelling disease estimates.

3.3 Work to be performed

- Develop a template to gather the data on influenza disease burden estimates which will feed into models for the global/regional estimates
- Gather data from countries and from literature
- Identify data gaps and develop options to fill the gap
- Discuss with Global Influenza Program (GIP) of WHO and finalize actions to fill the gap
- Work with GIP for a meeting (planned from the 11-15 July 2016 in Geneva) as one of the potential mechanisms for countries to present their influenza burden data which will be fed to the global/regional estimates

Develop a model to be used in extrapolating available data to produce a global estimate of influenza disease burden.

- the development should be based on analysis of
  - existing methodologies
  - available data from countries and other sources
- the specific method developed will be discussed and cleared by the expert advisory group of WHO on the subject via teleconferences and potential physical meeting.
- the model is expected, among other characteristics, to be
  - adjusted for factors known to affect morbidity.
  - focused on medically attended respiratory influenza diseases
  - powered with different multipliers to understand the full burden

- Develop a summary of the disease burden data provided by individual countries used in the model, including the methods for the country estimates.
- Populate the model with available disease burden data
• Present and discuss the progress and outcome of the work with GIP and the expert advisory group of WHO on the subject via teleconferences and potential physical meeting.
• Accomplish the above mentioned work by December 2016.
• Develop publication and report.

3.3.1 Key requirements
• Template for data gathering of influenza disease burden estimates.
• Report on the data gathering and summary of country based estimates.
• Participation in global meeting planned in July to gather and discuss country estimates.
• Detailed report of the model for regional and global estimation.
• Report that can be submitted for publication to a peer reviewed journal with the final range of estimates.

The bidder shall bear all costs associated with the preparation and submission of the proposal, including but not limited to the possible cost of discussing the proposal with WHO, making a presentation, negotiating a contract and any related travel. WHO will in no case be responsible or liable for those costs, regardless of the conduct or outcome of the selection process.

4.3 Contents of the Proposal

Proposals must offer the total requirement. Proposals offering only part of the requirement may be rejected.

The bidder is expected to follow the proposal structure described in paragraph 4.11 below and otherwise comply with all instructions, terms and specifications contained in, and submit all forms required pursuant to, this RFP. 5. EVALUATION OF PROPOSALS

5.1 Preliminary Examination of Proposals

WHO will examine the proposals to determine whether they are complete, whether any computational errors have been made, whether the documents have been properly signed, and whether the proposals are generally in order. Proposals which are not in order as aforesaid may be rejected.

Please note that WHO is not bound to select any bidder and may reject all proposals. Furthermore, since a contract would be awarded in respect of the proposal which is considered most responsive to the needs of the project concerned, due consideration being given to WHO’s general principles, including economy and efficiency, WHO does not bind itself in any way to select the bidder offering the lowest price.

5.2 Clarification of Proposals

WHO may, at its discretion, ask any bidder for clarification of any part of its proposal. The request for clarification and the response shall be in writing. No change in price or substance of the proposal shall be sought, offered or permitted during this exchange.

5.3 Evaluation of Proposals

A two-stage procedure will be utilized in evaluating the proposals, with technical evaluation of the proposal being completed prior to any focus on or comparison of price.

The technical and financial evaluations of proposals will be accomplished by WHO staff which will evaluate all proposals having passed the Preliminary Examination of Proposals.

5.3.1 Technical Evaluation

The technical evaluation of the proposals will include:

- the extent to which WHO’s requirements and expectations have been satisfactorily addressed;
- the quality of the overall proposal;
- the appropriateness of the proposed approach;
- the quality of the technical solution proposed;
- the manner in which it is proposed to manage and staff the project;
- the experience of the firm in carrying out related projects;
- the qualifications and competence of the personnel proposed for the assignment;
- the proposed timeframe for the project;

The number of points which can be obtained for each evaluation criterion is specified below and indicates the relative significance or weight of the item in the overall evaluation process.

5.3.2 Financial Evaluation

During the Financial Evaluation, the price proposal of all bidders who have passed the Technical Evaluation will be compared.

5.4 Bidders’ Presentations

WHO may, during the evaluation period, at its discretion, invite selected bidders to supply additional information on the contents of their proposal (at such bidders' own cost). Such bidders will be asked to give a presentation of their proposal (possibly with an emphasis on a topic of WHO's choice) followed by a question and answer session. The presentation will be held at WHO’s Headquarters in Geneva or by tele/videoconference.

NOTE: Other presentations and any other individual contact between WHO and bidders is expressly prohibited both before and after the closing date.

6. AWARD OF CONTRACT

6.1 Award Criteria, Award of Contract

WHO reserves the right to

a) Award the contract to a bidder of its choice, even if its bid is not the lowest;
b) Award separate contracts for parts of the work, components or items, to one or more bidders of its choice, even if their bids are not the lowest;
c) Accept or reject any proposal, and to annul the solicitation process and reject all proposals at any time prior to award of contract, without thereby incurring any liability to the affected bidder or bidders and without any obligation to inform the affected bidder or bidders of the grounds for WHO's action;
d) Award the contract on the basis of the Organization’s particular objectives to a bidder whose proposal is considered to be the most responsive to the needs of the Organization and the activity concerned;
e) Not award any contract at all.
f) Award more than one contract if the work seems to complement.
WHO has the right to eliminate bids for technical or other reasons throughout the evaluation/selection process. WHO shall not in any way be obliged to reveal, or discuss with any bidder, how a proposal was assessed, or to provide any other information relative to the evaluation/selection process or to state the reasons for elimination to any bidder.

NOTE: WHO is acting in good faith by issuing this RFP. However, this document does not oblige WHO to contract for the performance of any work, nor for the supply of any products or services.

6.2 WHO's Right to modify Scope or Requirements during the Evaluation/Selection Process

At any time during the evaluation/selection process, WHO reserves the right to modify the scope of the work, services and/or goods called for under this RFP. WHO shall notify the change to only those bidders who have not been officially eliminated due to technical reasons at that point in time.

6.3 WHO's Right to Extend/Revise Scope or Requirements at Time of Award

WHO reserves the right at the time of award of contract to extend, reduce or otherwise revise the scope of the work, services and/or goods called for under this RFP without any change in the base price or other terms and conditions offered by the selected bidder.

6.4 WHO's Right to enter into Negotiations

WHO also reserves the right to enter into negotiations with one or more bidders of its choice, including but not limited to negotiation of the terms of the proposal(s), the price quoted in such proposal(s) and/or the deletion of certain parts of the work, components or items called for under this RFP.

6.5 Signing of the Contract

Within 30 days of receipt of the contract, the successful bidder shall sign and date the contract and return it to WHO according to the instructions provided at that time. If the bidder does not accept the contract terms without changes, then WHO has the right not to proceed with the selected bidder and instead contract with another bidder of its choice.
7. GENERAL AND CONTRACTUAL CONDITIONS

The contract between WHO and the selected bidder ("the Contract") will, unless otherwise explicitly agreed in writing, include the provisions as set forth in this section, and will otherwise *inter alia* address the following issues:

- responsibilities of the selected bidder(s) ("the Contractor(s)") and WHO;
- clear deliverables, timelines and acceptance procedures;

7.5 **Legal Status**

The Contractor shall be considered as having the legal status of an independent contractor vis-à-vis WHO, and nothing contained in or relating to the Contract shall be construed as establishing or creating an employer/employee relationship between WHO, on the one hand, and the Contractor or any person used by the Contractor in the performance of the work, on the other hand.

Thus the Contractor shall be solely responsible for the manner in which the work is carried out. WHO shall not be responsible for any loss, accident, damage or injury suffered by the Contractor or persons or entities claiming under the Contractor, arising during or as a result of the implementation or execution of the Contract, including travel, whether sustained on WHO premises or not.

7.8 **Liability**

The Contractor hereby indemnifies and holds WHO harmless from and against the full amount of any and all claims and liabilities, including legal fees and costs, which are or may be made, filed or assessed against WHO at any time and based on, or arising out of, breach by the Contractor of any of its representations or warranties under the Contract, regardless of whether such representations and warranties are explicitly incorporated here in or are referred to in any attached Appendices.

2) In the event the progress of work is such that it becomes obvious that the obligations undertaken by the Contractor and, in particular, the time for fulfilment of such obligations, will not be respected.

In addition, WHO shall be entitled to terminate the Contract (or any part thereof), in writing:

1. At will with the provision of thirty (30) days prior notice in writing; and

2. With immediate effect (in addition to other rights, such as the right to claim damages), if, other than as provided above, the Contractor is:
