Disclaimer:

In order to enhance its management of conflicts of interest as well as strengthen public trust and transparency in connection with WHO meetings and activities involving the provision of technical/normative advice, the names and brief biographies of individuals (“Published Information”) being considered for participation in a WHO-convened meeting are disclosed for public notice and comment.

The Published Information is provided by the experts themselves and is the sole responsibility of the individuals concerned. WHO is not responsible for the accuracy, veracity and completeness of the Published Information provided. Furthermore, in no event will WHO be responsible or liable for damages in relation to the use of, and reliance upon, the Published Information.

The comments received by WHO through the public notice and comment process are treated confidentially and their receipt will be acknowledged through a generic email notification to the sender. Comments brought to the attention of WHO through this process are an integral component of WHO’s conflict of interest assessment process and are carefully reviewed. WHO reserves the right to discuss information received through this process with the relevant expert and disclose to this expert the name and affiliation of the provider of such information. Upon review and assessment of the information received through this process, WHO, in its sole discretion, may take appropriate management action in accordance with its policies.

Please send any comments to the following email: mncah@who.int not later than 10th February 2020

Technical experts provide technical and/or normative advice and recommendations to WHO. Participation in a meeting convened by WHO does not necessarily mean that the views expressed by the expert concerned are shared by WHO and/or represent the decisions or stated policy of WHO.

The list of participating experts, a summary of relevant interests disclosed by such experts, and any appropriate mitigation measures taken by WHO relating to the management of conflicts of interests, will be reported publically in accordance with WHO policies.
Surname, first name(s) and initial: Atout, Maha

Institutional affiliation(s): Nursing School, Philadelphia University

Academic degrees: PhD Paediatric Palliative Care, MSc Maternity and Newborn, BSc Nursing

City and country of primary residence: Jordan, Amman

Biography:

Dr. Atout completed her PhD at the University of Nottingham. She works as an Assistant Professor at the Philadelphia University of Jordan. Her experiences of working with children with life-threatening and life-limiting illnesses led to an interest in understanding communication between children with life-threatening conditions and their parents and health-care professionals. Her PhD work focused on investigating communication in the care of children with palliative care needs from the perspectives of Jordanian mothers, physicians, and nurses. She has published several papers in this field. She is also interested in investigating parental experiences of decision making at the end of life for children with life-threatening and life-limiting conditions. Currently, she is investigating children’s awareness of death, a subject that is largely neglected in the literature. During her training in the University of Nottingham, she gained a solid foundation in qualitative and mixed method research. She has presented at several international conferences and disseminated her research widely.

Surname, first name(s) and initial: Benini, Franca

Institutional affiliation(s): Department of Women’s and Children’s Health, University of Padua, Italy

Academic degrees:

City and country of primary residence: Padua, Italy

Biography:

Franca Benini is Director of the Veneto Regional Centre for Pain and Paediatric Palliative Care and the Children’s Hospice (Department of Women’s and Children’s Health, University of Padua) in Italy. In 1981, she graduated from Padua University with a degree in Medicine (cum laude). Subsequently, she continued her studies on Padua University specializing in Paediatrics (cum laude), in Anaesthesia and Reanimation, in Neonatology (honours) and in Pharmacology (cum laude). She lives in Padova, Italy.

She started her medical career working in Neonatal Intensive Care and the in Paediatric Intensive care. In both healthcare settings she focused her clinical interest and research in the area of pain and paediatric palliative care.

In 1982 she set up the first children’s pain management outpatients’ clinic in Italy and in 1983 launched a project aimed at instituting the first child-specific palliative care and pain management centre in the country. In 1989 she won a grant from the Italian National Research Council for an internship at McGill University in Montreal, Canada where she developed a project on pain in newborns. In 2007, she founded in Padua the first Italian children’s hospice.
At Padua University, she is an Adjunct Professor for the Specialization course in Paediatrics. She has published more than 200 scientific papers and has written or participated in the drafting of numerous texts and guides.

Surname, first name(s) and initial: Bustamante Tuchez, Linda Marisol
Institutional affiliation(s): Unidad Nacional de Oncología Pediátrica
Academic degrees: MD (paediatrics), Masters in Palliative care, Certificate Program in Pediatric Bioethics
City and country of primary residence: Guatemala City, Guatemala

Biography:
Paediatrician, Master in Palliative Care, Medical Coordinator of Hospice "Hogar Estuardo Mini" Guatemala, Palliative Care specialist at Unidad Nacional de Oncología Pediátrica Guatemala, Coordinator of the Paediatric Commission of the Latin American Association of Palliative Care (ALCP), Member of the EPEC-Latino.

Surname, first name(s) and initial: Chuan, Voo Teck
Institutional affiliation(s): Centre for Biomedical Ethics, National University of Singapore, Yong Loo Lin School of Medicine
Academic degrees: PhD, MA, BA (Hons)
City and country of primary residence: Singapore, Singapore

Biography:
Dr. Voo Teck Chuan is Assistant Professor at the Centre for Biomedical Ethics (CBmE), National University of Singapore (NUS), Yong Loo Lin School of Medicine. His academic background is in Philosophy and Medical Jurisprudence. He has published widely in the areas of medical ethics and professionalism, public health ethics, and research ethics and governance. Teck Chuan is CBmE director of graduate education, and director of the Health Ethics, Law and Professionalism (Phase I) undergraduate programme at NUS Medicine. From 2015-2019, he co-directed CENTRES (Clinical Ethics Network and Research Ethics Support), a networking and training platform for ethics committees in Singapore. He has contributed to guidelines and policies on clinical care and treatment of various patient populations in Singapore, including treatment of transgender and gender non-binary adolescents. He is a Steering Committee Member of the Global Forum on Bioethics in Research and is an editorial board member of the journal Asian Bioethics Review. He has provided ethics support for the World Health Organization in various capacities.

Surname, first name(s) and initial: Dans, Leonila F
Institutional affiliation(s): University of the Philippines - Manila
Academic degrees: MD, MSc Clinical Epidemiology
City and country of primary residence: Quezon City, Philippines
Biography:

After completing her medical degree at University of the Philippines-Manila, her residency training and postgraduate training in paediatrics and paediatric rheumatology at the Philippine General hospital, and her master’s Degree in design, Measurement and Evaluation at McMaster University, Canada, she continues to practice paediatrics and pediatric rheumatology in the Philippines. She has also been involved in several research projects. Since around 2000, she has been actively teaching Evidence-based Medicine and Clinical Practice Guideline (CPG) Methodology and has been a Reviewer of 4 Cochrane Reviews. She has been a member of the Knowledge Management Plus group of the International Clinical Epidemiology Network, developing modules for CPG development in the low-middle income countries. She has also been a methodologist and consultant in several CPG developments in the Asia-Pacific region, producing more than 14 CPGs since 2004. She is a consultant and member of the Guideline Review Committee of WHO (Geneva) since 2009. More recently in the Philippines, she has conducted a situational analysis of the CPG process and developing a guideline for a standard CPG development process for the Department of Health. She has had experience convening and engaging stakeholders in several various CPG developments. Advocating equity and minimizing conflicts of interest are the main areas in CPG process she has been working on.

Surname, first name(s) and initial:  De Savornin Lohman, Diederik

Institutional affiliation(s): Open Society Foundations, Human Rights Watch

Academic degrees: MA Russian Studies, MPSH

City and country of primary residence: New Jersey, Unites States of America

Biography:

Diederik Lohman is a health and human rights researcher and advocate with more than 20 years of experience. He is currently a senior advisor in the Public Health Program of the Open Society Foundations and a consultant working on the Global Fund to Fights AIDS, TB and Malaria’s Breaking Down Barriers initiative. From 2016 to 2018, he directed the Health and Human Rights Division at Human Rights Watch, where he oversaw the organization’s work on health rights and the rights of older people. Prior to that, he worked as associate health director and senior health researcher at Human Rights Watch, leading the organization’s research and advocacy on palliative care, pain treatment, and drug policy issues, spearheading advocacy at the U.N. Commission on Narcotic Drugs, the International Narcotics Control Board, the World Health Organization and other international institutions. He has also conducted extensive research on and written about drug dependence treatment and HIV treatment for drug users, and HIV testing and counselling. From 1997 to 2006, he served as senior researcher for Russia, Ukraine and Belarus with the Europe and Central Asia Division of Human Rights Watch and as its Moscow office director.

Surname, first name(s) and initial:  Doherty, Megan

Institutional affiliation(s): Children’s Hospital of Eastern Ontario, Ottawa, Canada and Two Worlds Cancer Collaboration (India) and World Child Cancer (Bangladesh)

Academic degrees: Post-graduate Residency in Paediatrics, Fellowship in Palliative Medicine
City and country of primary residence: Ottawa, Canada

Biography:
Dr. Megan Doherty a specialist in paediatric palliative care and consultant physician for the paediatric palliative care team at the Children's Hospital of Eastern Ontario and Roger Neilson House (paediatric hospice) in Ottawa, Canada. Dr. Doherty has extensive clinical and leadership experience in paediatric pain management in resource limited settings, through her leadership of the Children's Palliative Care Initiative in Bangladesh, the Paediatric Palliative Care Program of Two Worlds Cancer Collaboration in Hyderabad, India, and as a telemedicine consultant for Medecins Sans Frontieres. Her areas of expertise include developing and implementing paediatric palliative care and pain management clinical and education programs. She has also been instrumental in the development of palliative care programs for children in humanitarian crises situations, focusing on capacity building and training for health care workers and innovative models of community-based palliative care programs.

Surname, first name(s) and initial: Ezeanosika, Obumneme
Institutional affiliation(s): Alex Ekwueme Federal University Teaching Hospital
Academic degrees: MBBS, FWACP (Paediatrics), MSc

Dr. Kolodny has a long-standing interest in public health, treatment of opioid use disorder and treatment of pain. He began his career working for the New York City Department of Health and Mental Hygiene in the Office of the Executive Deputy Commissioner. For New York City, he helped develop and implement multiple programs to improve the health of New Yorkers and save lives, including city-wide buprenorphine programs, naloxone overdose prevention programs and emergency room-based screening, brief intervention and referral to treatment (SBIRT) programs for drug and alcohol misuse.

Surname, first name(s) and initial: Lord, Susan M.

Institutional affiliation(s): Children’s Complex Pain Service at John Hunter Children’s Hospital, Hunter Medical Research Institute, University of Newcastle

Academic degrees: BMedSc, BMed(Hons), PhD, FANZCA, FFPMANZCA

City and country of primary residence: Newcastle, Australia

Biography:
Susan M Lord is a Specialist Pain Medicine Physician with more than 15 years’ experience caring for children with complex and chronic pain. Following undergraduate medical studies
and a PhD studying spinal pain, she completed clinical fellowships in Anaesthesia and Pain Medicine. In 2004 she undertook training at the Children’s Hospital Westmead in Sydney, focussing on the care of children with chronic pain and those with pain in the palliative care context. Since then, she established and leads the Children’s Complex Pain Service in Newcastle, a major regional city serving a large geographical area. She helped establish the Pain in Childhood SIG of the Australian Pain Society, co-chairs the NSW Agency for Clinical Innovation’s Pain Management Network, and serves on the Board of the Faculty of Pain Medicine of the Australian & New Zealand College of Anaesthetists. She was involved in establishing the electronic Persistent Pain Outcomes Collaboration (ePPOC) across Australia & New Zealand children’s services. She serves on the writing group for Australian Therapeutic Guidelines and has co-authored recent Cochrane PaPaS group systematic reviews of the pharmacological management of chronic pain in children. She has an interest in public health ethics and equity.

Surname, first name(s) and initial: Marianayagam, Justina M.
Institutional affiliation(s): Northern Ontario School of Medicine (2018-present); University of Ottawa (2014-2018)
Academic degrees: Honours Bachelor of Health Sciences (French Immersion), BHSc (Degree conferred 2018); Doctor of Medicine (MD; degree in progress, expected graduation 2022)
City and country of primary residence: Yellowknife, Canada

Biography:
Justina Marianayagam is a medical student at the Northern Ontario School of Medicine and has lived/living experience with chronic pain. Originally from Yellowknife, Canada, Justina has been a noteworthy advocate for children living with pain.

Nationally, Justina was appointed by Health Canada to the Canadian Pain Task Force to help address chronic pain for all Canadians. She liaises with Northern communities to improve rural/remote engagement based on her experience as a pain patient in the subarctic. Justina is the youngest Board Member of Solutions for Kids in Pain (SKIP), a Canadian knowledge mobilization network that seeks to bridge the gap between current treatment practices and evidence-based solutions for children’s pain. Provincially, Justina was a patient advisor to the Ontario Ministry of Health, focusing on transitions from pediatric to adult pain care. Locally, Justina mentors young patients, and designed/launched the first pediatric patient-to-patient chronic pain support group in Canada. Presently, she is a Consultant for the Pain Treatment Center at Boston Children’s Hospital and Harvard Medical School.

Justina is a second-generation immigrant, fluent in both French and English. She is taking her lived experience with chronic pain and working towards completing her MD to become a physician specialized in this field.

Surname, first name(s) and initial: McMurtry, C. Meghan
Institutional affiliation(s): University of Guelph and McMaster Children’s Hospital
Academic degrees: BAH, PhD, C.Psych
City and country of primary residence: Guelph, Canada
Biography:

C. Meghan McMurtry is an Associate Professor in Psychology at the University of Guelph, director of the Pediatric Pain, Health, and Communication Lab, and a Clinical and Health Psychologist with the Pediatric Chronic Pain Program at McMaster Children’s Hospital. She is an Adjunct Research Professor in Paediatrics at Western University and an Associate Scientist at the Children’s Health Research Institute. Dr. McMurtry’s research and clinical interests focus on acute and chronic pain, medical procedure-related fear, as well as communication and family influences in these contexts. Her research has been funded by the Canadian Institutes of Health Research, the Canadian Foundation for Innovation, and Genome Canada, among others. Dr. McMurtry was the Co-Principal Investigator and an Evidence Lead on the national Help Eliminate Pain in Kids and Adults Team which created two clinical practice guidelines regarding vaccination pain and needle fear management; aspects from the pain management guideline were endorsed for vaccinations worldwide by the World Health Organization (WHO). Recently, Dr. McMurtry was the sole psychologist on the small subcommittee for the WHO’s Global Advisory Committee on Vaccine Safety tasking with creating guidance on immunization stress-related responses.

Surname, first name(s) and initial: Mwashala, Winifrida
Institutional affiliation(s): St. Lucia Nursing Home
Academic degrees: Master’s in nursing, Postgraduate Diploma in Palliative Medicine
City and country of primary residence: Arusha, Tanzania

Biography:

Trained as a registered nurse and midwife in Tanzania. In 2006 founded a home to offer an end of life care for the dying children with HIV/AIDS related symptoms, in Arusha. She is passionate about equality in social and health care settings. Has been involved and worked closely with the government and internationally projects in alleviating palliative care and social needs for the homeless children and most vulnerable populations. Enhancing accessibility to health care and social support services. Her research interests are on symptom management for patients with life threatening conditions at home-based care level, community mobilization and networking in public health and palliative care context.

Surname, first name(s) and initial: Namisango, Eve
Institutional affiliation(s): African Palliative Care Association and the African centre for systematic Reviews and Knowledge Translation, College of Medicine Makerere University
Academic degrees: MSc (Palliative care, policy and rehabilitation), PhD
City and country of primary residence: Makerere, Uganda

Biography:

Eve Namisango is a child, adolescent health, palliative care, Policy, and Rehabilitation specialist. She has extensive expertise in measuring pain and its impact on patient wellbeing, costing care (including medicines), supply chain mechanisms and availability of controlled medicines in resource-limited settings. She has also undertaken robust research in pain and
pharmaceutical systems in palliative care settings. Eve is reviewer for pharmacological study protocols on alternative herbal remedies to pain and symptom control as a vice-chair of the THETA research and ethics committee. She an outcome measurement specialist and passionate about person-centred outcomes in evaluating new treatment interventions.

Eve has worked with children living with life-limiting and life-threatening illness in the psychosocial/spiritual existential sector and studied their symptoms and concerns including illness and treatment experiences. She is also parent advocate for children living with life-limiting and life-threatening illnesses. She has studied outcome measurement in children and adults with life-limiting illnesses with a focus on prioritizing outcomes that matter to them and using these indicators to shape indicators of quality care. Eve combines this vast experience with a blend of skills in systematic reviews and knowledge translation and hence brings a wealth relevant expertise to this committee.

Surname, first name(s) and initial: Osman, Hibah
Institutional affiliation(s): American University of Beirut Medical Center
Academic degrees: MD, MPH
City and country of primary residence: Beirut, Lebanon
Biography:
Hibah Osman is physician with training and American Board certification in both Family Medicine and Hospice and Palliative Medicine. Her efforts have focused on clinical practice, program development, advocacy and research in palliative care since 2009. She is founder of the Lebanese Center for Palliative Care – Balsam and founding director of the Palliative and Supportive Care Program at the American University of Beirut Medical Center. She serves on the National Committee on Pain Control and Palliative Care in the Lebanese Ministry of Public Health and Chair of its Subcommittee on Practice.

Dr. Osman contributed to the WHO guideline for cancer pain management in adults and adolescents published in 2018 and was co-chair of the committee that developed the palliative care resource-stratified practice guideline at the American Society of Clinical Oncology (ASCO). She has authored a number of publications including the Atlas of Palliative Care in the Eastern Mediterranean Region. She is currently Assistant Professor of Medicine at Harvard Medical School and a palliative care physician at Massachusetts General Hospital. She also serves on the Board of Directors of the International Association of Hospice and Palliative Care.

Surname, first name(s) and initial: Palat, Gayatri
Institutional affiliation(s): MNJ Institute of Oncology and Regional Cancer Centre
Academic degrees: Diploma in Anaesthesia
City and country of primary residence: Hyderabad, India
Biography:
Dr Gayatri Palat is PAX Program Director, India for the Two Worlds Cancer Collaboration, Canada. She is a consultant in the Department of Pain and Palliative Medicine at the MNJ
Institute of Oncology and Regional Cancer Centre, Hyderabad, India and Secretary of the Pain Relief and Palliative Care Society in Hyderabad, India. Dr Palat was a member of the Board of Directors for the International Association for Hospice and Palliative Care.

Surname, first name(s) and initial: Rajagopal, M. R.
Institutional affiliation(s): Trivandrum Institute of Palliative Sciences
Academic degrees: MNAMS (Anaesthesiology), MD (Anaesthesiology), MBBS, BSC (Zoology)
City and country of primary residence: Kerala, India

Biography:
Dr Rajagopal is the director of the WHO Collaborating Center at Trivandrum, Kerala for Policy and Training on Access to Pain Relief, and the founder-chairman of "Pallium India".

His initiatives to remove regulatory barriers in availability of oral morphine for pain relief have contributed significantly to the recent Amendment of the NDPS Act of India in 2014. His initiative has also contributed to the development of a Government policy on Palliative Care in the state of Kerala in 2008 and Government of India's National Palliative Care Strategy in 2012.

In 2014, Human Rights Watch honoured him with Alison Des Forges award for "Extraordinary activism in promoting the notion that denial of pain relief is a violation of human rights".

In 2017, a documentary film titled "Hippocratic: 18 experiments in gently shaking the world" based on Dr. Rajagopal’s contributions to palliative care was released by Moonshine Agency, Australia (http://hippocraticfilm.com/). In 2017, he was named one of the 30 most influential leaders in hospice and palliative medicine by American Academy of Hospice and Palliative Medicine (AAHPM).

In 2018, Dr Rajagopal was honoured with Padma Shri, the fourth highest civilian award given annually from Republic of India.

Surname, first name(s) and initial: Toebes, Brigit
Institutional affiliation(s): University of Groningen, Faculty of Law
Academic degrees: LLM, PhD
City and country of primary residence: Haren, Netherlands

Biography:
Prof. Brigit Toebes is a legal scholar with more than twenty years of experience in the international standards protecting health, with a strong emphasis on human rights. In 2013, she was awarded a Rosalind Franklin Fellowship at University of Groningen Faculty of Law, which led to her appointment in the Chair Health Law in a Global Context in 2018. She is the initiator of Global Health Law Groningen Research Centre, which hosts around fifteen researchers.

Currently, Brigit conducts research in the field of tobacco control and unhealthy diets, looking at these concerns particularly through a human rights lens. She has published widely in legal,
public health and multidisciplinary journals, including Human Rights Quarterly, Harvard Health and Human Rights, the BMJ, and Tobacco Control.

Brigit is co-chair of the Global Health Law Committee of the International Law Association, board member of the Dutch Association of Health Law, and Coordinator of the Aletta Jacobs School of Public Health. Brigit was member of the Dutch Committee on vaccination for childcare (Commissie Vermeij, 2019), and acts as a consultant to various international bodies, including the WHO and UN Special Rapporteur on the Right to Health.

Surname, first name(s) and initial:  Yael, Ban Gal

Institutional affiliation(s): Schneider Children’s Medical Centre of Israel, Clalit Health Organization

Academic degrees: MHA, MA Clinical Nursing, RN BA Nursing

City and country of primary residence: Tel Aviv, Israel

Biography:

As Palliative Care Specialist, Paediatric Oncology Nurse, Head of palliative care services in Schneider Medical Center, the largest children hospital in Israel and the Middle East, I have extensive national and international clinical and leadership experience.
