Generally, the document is strong, comprehensive and communicates the desired response acceleration for all actors.

The gender based approaches to mitigating risk factors across the life course is welcomed. Point 16 needs to be well punctuated. Point 35 needs to be more specific (if necessary) to reflect what exactly is needed: lack staff? OR finances? Or Technical capacity?

Young people constitute the greatest majority of the population and of the vulnerable population. A statement recognizing this potential, specifically, to harness the power of youth in innovation especially in use of technology for prevention and control efforts, needs to be included to guarantee and motivate youth recognition at such high profile global policy making process.

Thank you.

Sincerely,

M. Ferdinand S.
