Comments:

Thanks for the opportunity to make our voice heard in this global on NCD.

I write in respect to this provision as spelt out in the MONTEVIDEO ROADMAP 2018-2030 ON NCDs AS A SUSTAINABLE DEVELOPMENT PRIORITY 'We acknowledge the need to engage with non-State actors in view of their significant role for the advancement and promotion of the highest attainable standard of health and to encourage non-State actors to use their own activities to protect and promote public health, in line with national context and priorities.'

Ghana Muslim Mission support in entirety of the wordings of this provision but also wish to add that capacities and opportunities of engagements for key NSA(Faith Based Organizations) at National levels prior to Legislation and policy formulations and implementations must strengthened and consolidated in with the view of motivation the citizenry to own these directives to effect behavioural and attitude change.

We believe that in so doing couple support mechanisms NSAs shall be motivated to carry this calls and consistently be motivated to see to the realization of the SDGs 3-4.
