COMMENT: We suggest more language that underscores the need for an integrated approach, ensuring NCDs do not continue to be siloed from related issues areas.

11. We will work towards the harmonization of global infectious disease and NCD agendas in both prevention and health systems at the national and global development levels, recognizing the opportunity to achieve gains in the prevention and control of both through integrated approaches. 
COMMENT: We suggestion a point on the integration between the MNCH and NCD continuums of care:

We will work towards the harmonization of maternal, newborn, and child health and NCD agendas in both prevention and health systems at the national and global development levels, recognizing the opportunity to achieve gains in the prevention and control of both through integrated approaches.

18. We acknowledge that influencing public policies in sectors beyond health is essential in achieving health gains to reduce premature deaths from NCDs. In addition, we recognize the interconnectedness between the prevention and control of NCDs and the achievement of the SDGs beyond 3.4, including targets related to poverty, substance abuse, nutrition, death related environmental exposure, sustainable cities and others. Coordinated upstream action across sectors, including agriculture, environment, industry, trade and finance, education and urban planning will help to create a healthy and enabling environment that promotes policy coherence and supports healthy behaviours and lifestyles. It is the role of the health sector to advocate for these actions, present evidence-based information, support health impact assessments and provide policy reviews and analyses on how decisions impact health, including implementation research. We therefore commit to strong leadership and to ensure collaboration among sectors to implement policies to achieve shared goals. 
COMMENT: include 'gender' as a sector here

23. COMMENT: Delete extra space We call on WHO to conduct a review of international experience of intersectoral policies to achieve SDG target 3.4 on NCDs, and update its guidance on multisectoral and multi-stakeholder action for the prevention and control of NCDs and to consider establishing a web portal with case studies on multisectoral NCD responses to be updated on a continuing basis. 
COMMENT: Add period.
