REQUEST FOR EXPRESSIONS OF INTEREST: 2 MONTH CONSULTANT CONTRACT

Support for diabetes under the Management of Non-Communicable Diseases Unit

25 July 2019

Aim of position:

To provide support for the development of tools for diabetes management

Background:

The Noncommunicable Diseases Management Unit's main mission is to provide leadership and technical guidance for development, implementation, and evaluation of policies, plans and programmes for management of Noncommunicable Diseases (NCDs) including diabetes, in collaboration with Member States and internal and external partners. The objective of the programme is to support delivery of the Global Action Plan for the Prevention and Control of NCDs and the delivery of universal health coverage including the strengthening of diabetes management as a component of integrated treatment.

Activities:

To provide support for the:

- development framework for the management of type 1 diabetes at first referral level hospitals in low- and middle-income countries
- development of a tool for monitoring diabetes patient care and outcomes at health facility level
- development of recommendations on the classification and diagnosis of chronic complications of diabetes

Contract duration: 2 months. The expected start is 1 October 2019.

The contractual parties will be remunerated at a rate that is commensurate with their qualifications and experience.

Qualifications and Experiences required:

- A university degree in medicine with specialized qualification in endocrinology
- Experience in clinical diabetology
- Experience in evidence appraisal and guideline development
- Experience in using epidemiological/statistical software
- Excellent writing skills
- English essential, spoken and written

Deadline:

Expressions of interest are to be delivered to Dr Gojka Roglic at: roglicg@who.int on Tuesday 20 August 2019.
