Strengthening health systems to respond to NCDs

Dr. Carissa Etienne
Assistant Director-General
World Health Organization
NCDs and health systems

- Inequitable impact
- Health systems not oriented towards NCDs
- We can and must act now
Objective 2 – National policies and plans

Establishing and strengthening national policies and programs

The integration of the prevention and control of noncommunicable diseases into the national health development plan

The reorientation and strengthening of health systems, enabling them to respond more effectively and equitably to the health-care needs of people with noncommunicable diseases
Increasingly, policy makers in developing countries are being challenged to formulate national policies and plans for the prevention and control of non-communicable diseases.
Strategy for health system strengthening

UNIVERSAL COVERAGE REFORMS

to improve health equity

SERVICE DELIVERY REFORMS

to make health systems people-centred

LEADERSHIP REFORMS

to make health authorities more reliable

PUBLIC POLICY REFORMS

to promote and protect the health of communities
Strengthening systems
National Multisectoral Stakeholder Coordination
