Voices from the People: Have you been affected by road crashes? If so, then how?

Presentation of findings from the Peoples Survey:
18 February – 3-4:30pm Hotel Terminus, Vasagatan
The Peoples Survey

135 countries responded with 6000+ respondents

Preliminary Findings:

• 96% find, that road safety is extremely or very important as a public health issue
• 86% personally know someone who has been killed in a road crash
• 95% personally know someone who has been injured in a road crash
• 17% of respondents had lost a spouse, a sibling, a child or a parent due to car crashes. 33% of these had lost a parent in a road crash
• 43% of respondents reported that they suffered from depression, hopelessness, anger, nightmares, flashbacks, sleep disturbance panic attacks, and/or poor concentration after a road crash affected them or their loved ones
• 15,4% of respondents reported that they or their children had to abandon school or work as the result of a road crash

Presentation of findings and launch of report: 18 February – 3-4:30pm Hotel Terminus
