UN Road Safety Collaboration
UITP
Philip Turner, Senior Expert
About UITP

1700 member companies
• Operators
• Authorities
• Policy decision-makers
• Research institutes
• Supply and service industry

100 countries
SDG TARGET
11.2 by 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by expanding public transport, with special attention to the needs of those in vulnerable situations, women, children, persons with disabilities and older persons.
Work on improving road safety in the public transport sector

Knowledge
- Supporting cities and national governments to build sustainable transport systems in their cities
- Share best practices and knowledge that can help improve road safety in cities – Vision Zero approaches

Advocacy
- Raise awareness of public transport to road safety and the SDGs

Capacity Building
- Staff training on safety management, hazard identification, accident causation and prevention and analysis feedback loop
How UITP can support UNRSC’s goals and objectives

• Strengthen global, regional coordination on road safety through information exchange and multi-sectoral approaches
• Advocate for road safety in our cities and encourage demand and resources locally, nationally and internationally, notably linked to SDG 11.2
• Share best practices, monitoring and evaluation with cities, UNRSC members and UN on SDG 11.2 linked to “improving road safety, notably by expanding public transport”
• Coordinate efforts within the UN system and to encourage a culture of road safety within the local and national level as well as internationally
• Actively participate in the Collaboration’s priority activities and represent the public transport sector
• Support implementation of the 2030 goals through out membership
