Objective: To discuss key methods for measurement of PHC performance, with measures relevant to community, facility, sub-national and national processes and how to use data generated to promote accountability and guide improvement efforts at each level.

### Session 1: Setting the Stage
Moderator: K Srinath Reddy, Public Health Foundation of India

**Objectives:**
1. Share key messages from PHC Workshop;
2. Discuss PHC-relevant efforts to improve country health information systems and PHC performance; and
3. Discuss data gaps in under-measured domains and how these might be addressed at levels of the health system (community, facility, district, national)
