REVIEW TECHNICAL ASSISTANCE ACTIVITIES IN 2011

Group 3
Uganda, Ghana, Mozambique, Nigeria, Kenya
STRENGTHS

• Areas of Technical assistance
  – Development of guidelines, protocols and SOPs
  – Review of programmatic intervention
  – DOTS expansion for case finding
  – Systematic organization of interventions
  – Consolidation of GF TB grant

• Used TA for in-country capacity building
CHALLENGES/CONTRAINTS

• No/inadequate dedicated budget line for TA
• No/limited funds for implementing TA recommendation
• Lack of understanding of in-country processes/contexts
• Some of the recommendation are not appropriate/no in-country capacity to implement
• Lack of continuity in technical assistance
• Inadequate coordination/involvement of partners when offering technical support
Way Forward

• Leveraging TA from technical partners in-country
• Country should undertake TA needs assessment and long term TA planning
• Mapping of technical partners in-country
• Capacity building of in-country counterpart (Part of TOR).
• Advocate and mobilize resource for TA
• Proper feedback
