**Progress**

**Achieved or on track**

**Maternal death surveillance and response (MDSR) system in place**
- The PNG maternal deaths surveillance report has been completed.

**Available core 11 indicators monitored**
- Medical Records Officers were trained in ICD-10 coding.
- The 11 indicators are collected as part of routine health information and a DHS will be conducted in 2015-16.
- A gap analysis of the National Health Information System was conducted.

**National health sector review**
- The 2013 Annual Sector Report (ASR) was completed and disseminated, and the 2014 ASR is currently being prepared.
- The National Department of Health (NDoH) is developing an accountability framework analysing RNMCH data at the subnational level, which will be shared when completed.

**Rights based law and policy assessment completed for RMNCH**
- RMNCH policies have been developed.

**Continued efforts required**

**Civil registration, vital statistics (CRVS) assessment completed, plan developed**
- The rapid assessment of the PNG CRVS, scheduled for April 2014, was postponed because the short-term consultant was not able to travel due to flooding from a cyclone.

**Work not prioritized / not begun**

**Country reporting on health expenditure by financing source**
- A member of the National Health Accounts (NHA) task team attended a training session on the accounting framework for the System of Health Accounts (SHA) 2011 in Hanoi.
- The NDoH is collecting NHA financing data.

**Political leaders engaged in RMNCH**
- The NDoH organized an advocacy workshop on family planning in February 2014 with the participation of National Members of Parliament, Provincial Governors, Provincial Administrators, NGOs and other stakeholders. Resources other than those from CoIA were used for the forum.

**National eHealth strategy**
- An eHealth Strategy for PNG will be developed in 2014.

**IHP+ compact or equivalent partnership agreement**
- Not planned.
Future needs

1. ICD-10 training for Medical Records Officers from the remaining provinces.
2. Continue roll-out of maternal death surveillance and produce a subsequent report.
4. Train medical doctors in death certification.
5. National Countdown event is planned for 2014.
7. NHA report-writing and dissemination.
