OBJECTIVES OF THE DISCUSSION

To share the draft outcome statement.
To input and feedback on the statement ahead of the 2nd Global Forum on HRH to ensure that it includes valid ideas and potential actions of all HRH stakeholders.

POINTS TO PONDER

Since the adoption of the Kampala Declaration and Agenda for Global Action at the First Global Forum in Kampala in 2008, the global community and many countries experiencing the most severe health worker shortages have taken concrete steps to improving the situation globally, nationally and locally. Beyond the 2nd Forum, what concrete actions must HRH stakeholders take to ensure further progress?
How can stakeholders turn their commitments into tangible actions that will make a difference for the health workforce and the health of populations most at risk?

EXPERT ADVISORS
